Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on 30 October 2008 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 30 October 2008 was filed after the mailing date of the Notice of Allowance on 22 October 2008. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 2856

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,551,287 to Maute et al. Maute et al. discloses a logging tool (Figs. 1 & 2) for a borehole (16) having an interior wall, the logging tool including: a tool body (11) adapted to be inserted into the borehole; a sensing device (14) coupled to the tool body, the sensing device adapted to detect radial flow of conductive fluid entering or leaving the borehole interior wall; the sensing device adapted to detect the conductive fluid adjacent the borehole interior wall (Maute et al.: claims 1, 2 and 5) (note: although Maute et al. do not expressly disclose the phrase "conductive fluid," the sensing device (14) is functionally capable to detect any type of fluid entering/exiting the borehole wall, conductive or non-conductive, thus meeting the limitation of "conductive fluid."); shields (16) disposed along the sensing device; and voltage sensing electrodes (17, 23-32, 36, 37) disposed on the interior surfaces of the shields (see Fig. 2 below); wherein the electrode comprises a point electrode (i.e. thermocouple) (as recited in claims 1 and 4); wherein shields are interconnected (see Fig. 1) (as recited in claims 2); wherein the shields comprise a conduit (i.e. flow path between sensing electrodes (23-32) (see Fig. 2 below) and wherein the sensing electrodes comprise a longitudinal electrode (see Fig. 2 below) (as recited in claim 5).

**FIG. 2***Allowable Subject Matter*

5. Claims 31-50 are allowed over the Prior Art of record.
6. Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Fitzgerald whose telephone number is (571) 272-2843. The examiner can normally be reached on Monday-Friday from 7:00 AM to 3:30 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams, can be reached on (571) 272-2208. The fax phone number for the organization where this
